

**Science Explore Students
Field Trip at Carter Mountain Orchard
September 15, 2005**

One student reached up high to get the largest red delicious apple he could find!

*Orchard-owner, Mrs. Chiles answers student's questions about care of their apple trees.
What a beautiful view from up on top Carter Mountain!*

Students and their parents gather on the deck of the apple barn to listen to an educational talk by Mrs. Chiles. Did you know that there are 25 different kinds of apple trees at the orchard?
